

SUMMARY

Frontend Developer with 1+ years of experience building responsive and dynamic web applications using React.js, Next.js, JavaScript, TypeScript, and Tailwind CSS. Proficient in developing reusable components, integrating GraphQL and REST APIs, implementing dynamic routing, and building responsive user interfaces. Experienced with Node.js and Express.js for REST API development, CRUD operations, routing, and middleware. Strong focus on code quality, performance optimization, and collaborative development practices.

EXPERIENCE

Ayasya Digital Solutions *Frontend Developer*

Delhi, India
June 2025 – Present

- Contributed to the development and maintenance of the Haldiram D2C e-commerce platform using Next.js, React, TypeScript, and Tailwind CSS, delivering scalable solutions for high-traffic environments.
- Developed 15+ reusable and modular React components with TypeScript to improve code maintainability, consistency, and development efficiency across the application.
- Integrated GraphQL APIs through reusable wrapper functions, reducing API integration time by 30% and implementing robust error handling and dynamic content rendering.
- Implemented nested dynamic routing in Next.js for structured product and category navigation, enhancing user experience and SEO performance.
- Resolved 20+ UI issues and improved responsive layouts across desktop, tablet, and mobile devices, ensuring consistent user experiences across all breakpoints.
- Actively participated in code reviews, implementing feedback from senior developers, and maintaining high standards of code quality and structure.
- Collaborated with cross-functional teams (designers, backend engineers) in Agile sprints to understand requirements and deliver efficient, scalable UI solutions.
- Utilized Git for version control and contributed to shared codebases in collaborative development environments, following best practices and naming conventions.

PROJECTS

Aditya Birla Digital Calculator

- Developed reusable React and TypeScript components for a calculator application built with Next.js and modern frontend architecture.
- Integrated GraphQL APIs to build API-driven interfaces and dynamically render application data with optimized query performance.
- Integrated Strapi Headless CMS for managing and rendering dynamic content, demonstrating mastery of modern CMS workflows.

Full-Stack E-Commerce Website

- Built a responsive e-commerce application using React.js with user authentication, product categories, advanced search, and shopping cart functionality.
- Implemented Redux for centralized state management and integrated REST APIs for dynamic product data and real-time inventory updates.
- Developed reusable UI components and fully responsive layouts using Tailwind CSS, supporting desktop, tablet, and mobile devices.

Taxi Booking Service Website

- Developed a responsive taxi booking website with online booking system, phone, and WhatsApp-based contact options for customer accessibility.

- Implemented backend form processing using Node.js, Express.js, and Nodemailer for email notifications and user engagement.
- Designed a mobile-first interface using Tailwind CSS with responsive layouts and optimized performance across all devices.

TECHNICAL SKILLS

- **Frontend**
React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, React Hooks, Component Architecture
- **Backend & APIs**
Node.js, Express.js, REST APIs, CRUD Operations, Routing, Middleware, Nodemailer, GraphQL, Apollo Client
- **State Management & Databases**
Redux, Axios, Context API, Strapi Headless CMS
- **Developer Tools & Practices**
Git, GitHub, VS Code, Postman, npm, Chrome DevTools, Responsive Design, Agile Development

EDUCATION

- **Graphic Era Hill University, Dehradun**
Master of Computer Applications (MCA) — CGPA: 7.4 *July 2021 – May 2023*
- **Graphic Era Hill University, Dehradun**
Bachelor of Science in Information Technology (B.Sc. IT) — CGPA: 7.6 *July 2018 – May 2021*
